### USDA-NRCS Report by Jennifer Wood, District Conservationist, Jackson LPO September 2023

### Program Deadlines

### Partnerships/Planning

#### New

- Tuolumne County RCD (TCRCD) has secured the NRCS Cooperative Agreement to assist with technical and financial assistance outreach and navigation for forestry and other working lands operators. The Agreement is meant to assist with organizing the resources to help us all, across all 3 counties, deliver a consistent set of information to customers.
- TCRCD is hosting an outreach event on Tuesday, October 17 from 2 to 5 that includes the Modesto FSA staff presenting information on their loan programs, along with other partners.
- NRCS is applying to have a booth at the Chaw'se Indian Grinding Rock SP on Sept 23<sup>rd</sup> and 24<sup>th</sup>.
- A Meet and Greet was held at the Jackson office with Amador RCD, UCCE, and NRCS for staff and will now be held quarterly. A searchable resources spreadsheet that catalogs natural resources technical and funding assistance is in development this will help inform the TCRCD -led effort to develop a resources guide for each county.

### Ongoing

- Staff continues to work through the over 70 applications that have not received site visits in the order they came in. There is backlog of at least 125 requests for planning in addition to the applicant list.
- Applications are accepted year-round. It is unlikely that new rangeland applicants will get a site
  visit this year due to the backlog. Exceptions could include candidates for CSP or new fund pools
  and initiatives.
- There are new opportunities to assist the Tribes, and building relationships with the Tribes is a priority for the Area and the office. There is also a fund pool specifically for Native American owners and operators.

### Staff Updates

• The assistance we can get from the NRCS Auburn Office Rangeland Conservationist is limited. There is still a GS 9-11 vacancy for a Rangeland Conservationist on the staffing plan for our office, but there are no vacancy announcements planned in the near term.

- NRCS Area 3 Biologist position was advertised, and selections being considered. Biology assistance is a critical need to conduct bird nesting surveys for anticipated increased forestry work and for helping to plan wildlife practices.
- Current staff: District Conservationist Jennifer Wood, Engineer Bradley Soares and Forester Garrett McFall. Tamryn Zahradka is the ACRCD Forester and an NRCS affiliate who is assisting with NRCS forestry customers.

# Environmental Quality Incentives Program (EQIP), Conservation Stewardship Program (CSP) and Conservation Incentives Program (CIC)

- Administration of 66 active conservation contracts to treat 24,195 acres is ongoing, with 3.46 million dollars obligated.
- There are an total of 11 FY' 23 contracts obligating approximately \$500,000 on approximately 3500 acres for range and forestry conservation activities.
